

MYO = Potential

Without boundaries, Myo, is everywhere and nowhere at once. Myo is energy without formations.

The Wonderful and Difficult to Understand Law

MYO – Quiescent Energy

- Potential energy that is everywhere and nowhere at once. We speak of **Phenomena** (*formations of energy*) versus **Noumena** (*Quiescence*)
- Like an unlimited circle expanding in all directions or a point. A point that has no size or location but an initial instantiation. Like the ancient Chinese symbol of **Wuji**, a place of no extremities.
